EXPERIENCE

Near Ltd (*Technical Founder / FEB, 2019 - PRESENT*)

I worked on solutions to increase access to resources for the average Ghanaian.

- [The NearAid Platform](#): I built a USSD service, two mobile apps using NativescriptVue, the web apps and the underline platform API and infrastructure.
- [Nearbry](#): Infrastructure and web apps.

Tools: Laravel, Vue, NativescriptVue, Heroku, AWS, Tailwind, etc.

IT Consortium Ltd (*Fullstack Programmer / NOV 2015 - JAN, 2019*)

I worked on financial, educational and general solutions for business and customers in Ghana. I had to take software specs from my superiors and deliver matching solutions to the user acceptance teams.

- [Ghana Passport](#) & [Ghana Card](#): I built the portal (frontend and backend) the public use for buying, completing and monitoring passport application forms.
- Transflow DirectDebit: Built the API that powers standing orders for services like MyOwnPensions (on Mobile Money) and a portal for banks and individuals to manage their orders.
- Transflow SMS Gateway, OASIS (Educational platform for basic and secondary schools), etc.

Tools: Laravel/Lumen, Vue, jQuery, AWS, Bootstrap, Slim etc.

DevHub Concepts Ltd (*Web Developer / Aug 2013 - Oct 2015*)

Worked as a Backend developer using Drupal and CodeIgniter. Worked closely with a remote team across South-Africa, Ghana and Senegal.

- [MusicInAfrica](#): Converting designs from the design team into the Drupal theme for the site and implemented sections of the backend.

Tools: Drupal, CodeIgniter, jQuery, Bootstrap, etc.

EDUCATION

Accra Institute of Technology (*BSc. Comp Science / Aug 2017 - Date*)

NIIT Ghana (*Diploma in Software Engineering / Dec 2009 - Aug 2011*)
